

Dieringer School District

Pesticide Application Policy

Purpose: This policy is to insure proper procedures are used by the Dieringer School District when applying pesticides. These procedures will reduce the risk of exposure to students, staff and the local community.

1. Pesticide applications will be posted in schools and at the site to be treated 48 hours prior to application. The notification will be posted in a prominent place in the main office of the school. The posting will include the heading “*Notice: Pesticide Application*”.
 - a. Product name of the pesticide to be applied
 - b. Intended date and time of application
 - c. Location to which the pesticide application is to be applied
 - d. Pest to be controlled
 - e. Name and phone number of a contact person for the district
2. In the event of emergency applications, school offices will be notified prior to application and will be posted upon completion of application.
3. Pesticides will be applied by the Dieringer School District Maintenance Department and or by licensed spray companies. Most applications will be applied after school hours before weekends, school breaks & before holidays.
4. All pesticides & herbicides used by the Dieringer School District will be posted on our website and in handbooks. For more information you may contact our maintenance department at 253-862-6703.
