### More Emergency Preparedness

Two weeks ago we let you know about our basic plan. This week, we'd like to tell you our plans for reuniting families with children, should we have an emergency (for example: an earthquake). Please know we have procedures in place in the event of an emergency. In fact, the safest place for your child is school. However, if you come to pick up your child after an emergency, follow these instructions. Be prepared to wait, as it is so important that we record and document with whom our students go home.

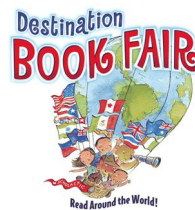

- When arriving on campus, go to the sidewalk that parallels the ball field. Form a line at the Identification Table; there you will find school personnel ready to assist you.
- We will ask you for identification. Have it ready to give. Remember, for the safety of all children, we will only release students to people you have named on their emergency cards.
- Once you have shown your ID, you will go to the Sign Out Table to meet with your child. We will have runners with walkie-talkies so that this process will go as smoothly as possible. When you have met up with your child, we will ask you to sign that the student has been taken.

Please keep this information in a safe place and share it with family and friends who pick up your child on occasion. Also, let us know if you have any questions regarding this information.
